

AMENDMENT UNDER 37 C.F.R. § 1.114
U.S. Application No.: 09/845,356

Attorney Docket No.: Q64324

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

- 1-24. (canceled).
25. (currently amended): A white light-emitting device comprising an anode, at least one organic compound layer containing a light-emitting layer, and a cathode, wherein the light-emitting layer ~~comprises~~ consists essentially of red, green, and blue light-emitting materials in same light-emitting layer to obtain the white light emission, and wherein at least one of the light-emitting materials is an orthometallated complex.
26. (previously presented): A white light-emitting device of claim 25, wherein at least two of the light emitting materials are orthometallated complexes.
27. (previously presented): A white light-emitting device of claim 25, wherein all of the light-emitting materials are orthometallated complexes.
28. (previously presented): A white light-emitting device of claim 25, wherein the red, green, and blue light-emitting materials emit light, thereby obtaining white light.
29. (currently amended): A white light-emitting device comprising an anode, at least one organic compound layer containing a light-emitting layer, and a cathode, wherein the light-emitting layer comprises a red light emitting layer ~~comprising~~ consisting essentially of a red light-emitting material, a green light emitting layer ~~comprising~~

consisting essentially of a green light-emitting material, and a blue light-emitting layer ~~comprising~~ consisting essentially of a blue light-emitting material in different light-emitting layers to obtain the white light emission, and wherein at least one of the light-emitting materials is an orthometallated complex.

30. (currently amended): A white light-emitting device of claim ~~28~~ 29, wherein at least two of the light-emitting materials are orthometallated complexes.

31. (currently amended): A white light-emitting device of claim ~~28~~ 29, wherein all of the light-emitting materials are orthometallated complexes.

32. (currently amended): A white light emitting device of claim ~~28~~ 29, wherein the red, green, and blue light emitting materials emit light, thereby obtaining white light.
